JUNIOR KARTS. Birel offers the most successful, most popular junior karts currently available. With the multitude of Junior classes out there, the C28z and the AR28z models fill several roles. The C28 is a short wheelbase, scaled down chassis that is suitable for the popular Comer Cadet class while also able to compete in 60cc Jr. Shifter or the fast growing Rotax MicroMax & MiniMax classes.

The AR28z comes in as the premier junior model for the 8-15 year old. Coming standard with the MTS* accessory package and with the X-system adjustable wheelbase, the AR28Z can provide a winning package in Jr. Sportsman, 4-cycle, TaG Jr. or 100cc Jr. classes.

C28z *Cadet/MiniMax/60cc Shifter* for ages 8-12 years old

Standard Equipment :

- 28mm chassis construction
- 30mm or 40mm Freeline axle
- Birel hybrid brake system
- Optional castor/camber adjusters
- Genuine Freeline aluminum wheels
- Adjustable rear ride height
- Removable front torsion bar
- Optional rear torsion bar
- Freeline CIK03-style bodywork
- Freeline aluminum motor mount
- Optional COMER 80cc or Rotax engine package

AR28z_{MTS} *Jr. Sportsman/100cc Jr.* for ages 8-15 years old

Standard Equipment :

- X-system adjustable wheelbase*
- Birel MTS* accessory package
- 28mm chassis construction
- 30mm or 40mm Freeline axle
- Adjustable rear ride-height
- Freeline cast hydraulic brakes
- Genuine Freeline magnesium wheels
- Removable front torsion bar
- Optional rear torsion bar
- Optional castor/camber adjusters
- Freeline CIK03 bodywork
- Freeline aluminum motor mount
- Removable 8.5L fuel tank

X-SYSTEM

The "X" system allows the AR28Z chassis to have three different wheelbase settings for varying track conditions, tire compounds or driver preference. In addition, there are two ride-height settings, giving the AR28Z more adjustment capabilities than any other kart in its class.

The AR28Z is available with Birel factory graphics kit (shown above).
