C28z

Since the beginning of the "Cadet Kart" movement (short wheelbase for younger and small drivers), the Birel C28 has been a leader in ease of use, design, simplicity and success. The C28 has easily been the most popular and successful "cadet" chassis with local, regional and national wins since its inception and the new C28z promises to be no exception. Whether it is the cadet category or either the Rotax Micro or Mini Max classes, the C28 has been a stepping stone for many hundreds of new kart racers that have grown up in our sport. Learn more about the 2011 model's newest features at www.BirelAmerica.com
